

Electrical Utilities Portfolio | *The Noah Experience*

Electricity is the rush of electrons - the conversion of energy for our convenience. Noah Enterprises' recognizes that electricity fuels our world. It produces heat, and cold, safety and light, communication and connection. From HVAC systems, to traffic lights, to technology, to a simple light bulb to read by, it is the essence by which we survive. Noah possesses a Safety Culture that also understands and respects electricity's undeniable power to cause great harm. Noah brings to each project a portfolio of electrical utilities expertise coupled with a deep respect for the power that gives our clients The Noah Experience.
